## Interactive Experience Designer | Game & Immersive UI

fanyumeng16@gmail.com | (1) 412-430-2950 | [yymeng.vercel.app](http://yymeng.vercel.app)

---

### EDUCATION

#### Savannah College of Art and Design (SCAD)

Sept 2023 – Nov 2026

- M.F.A. in Interactive Design and Game Development (ITGM)

---

### EXPERIENCE

#### SCADpro × Mayo Clinic

Jan 2026 – May 2026

Branding Lead & Interaction Designer (20-person team)

- Led branding and UI design for a 20-person team's Mixed Reality BLS training experience, implementing final visual assets directly in Unity for Meta Quest
- Designed hand-tracked interaction mechanics with coordinated motion and sound design
- Streamlined Mayo Clinic's certification testing process based on usability testing (~20 participants) — reducing requirements from 28 nurses/100+ trainees to a leaner format — then delivered the final build to the client

#### SCADServe x Massie Heritage Center

Sept 2025 – Nov 2025

Interaction Designer

- Designed interactive storytelling experiences within a 15-person team, translating local history into game-based, animation-driven installations and participatory learning moments
- Developed three tiered implementation proposals — from a foundational version to advanced upgrades — each detailing budget, equipment requirements, and operational implementation specifics
- Integrated animation, spatial interaction, and screen-based systems to increase visitor engagement, delivering a complete proposal package to Massie Heritage Center

#### SCADpro × Universal

Sept 2024 – Nov 2024

UI/UX Lead (20-person team)

- Led UI/UX for a 20-person team, analyzing Universal's brand identity and proposing five creative concepts based on client requirements
- Directed design of the selected concept — an AR app paired with physical interactive installations — defining user flows and a brand-aligned visual system
- Delivered the final AR app and interactive installations to the client with consistent visual and interaction polish

---

### TECHNICAL & SKILLS

**Unity & XR Development** • Game UI / Immersive UI Design, Interaction Design, VR & AR Development, Unity, Meta ISDK, XRI, Processing, Arduino, AI-assisted coding tools (e.g., Cursor)

**Visual & UX Design** • Graphic Design, Branding & Visual Identity, UX Research & Usability Testing  
• Figma, Adobe Illustrator, Adobe Photoshop, Adobe After Effects

**3D Art & Animation** • 3D Modeling & Asset Creation, Motion Design & Animation  
• Blender, Rhino, Nomad Sculpt, Cura

**Process & Collaboration** • Cross-functional Team Leadership  
• Project/Production Coordination, Journey Mapping & Service Blueprints
